

Vehicle Tracking & Recovery

Mobile & Web Application

The solution includes the following:

- Skymaster (Bluetooth) device
- Skymaster (Bluetooth) remote for switching relay (immobilizing function) ON/OFF (optional)*
- Skymaster (Bluetooth) wireless relay for immobilizing function (optional)*
- Panic button (optional)*

Solution benefits:

- The complete solution offers a true wireless solution utilizing the latest Bluetooth technology, making the installation quick and easy.
- The base product is included with a mobile app. (Very cheapest SVR option includes the mobile app – Beame does not).
- The End-User app is very user-friendly and easy to use.
- The solution includes the immobilizing feature.
- Extensive dashboard that can be customized.
- Quick track playback for tracking history (on Tracking page).
- Costing is more affordable than Smartsurv.

Vehicle Recovery

Stolen Vehicle Recovery (only available for **Skymaster Lite - Combo)***

Once you have contacted **Alarmmaster's Emergency number - 079 515 9443** We will follow up with a Armed Response Unit to retrieve your vehicle, with it's location being presented on the Skymaster application.

The Skymaster Application provides your vehicle's exact location along with tracking and route reports. Efficiently monitor, track and recover your vehicle/s in real-time.
